## MENZIES BUILDING MONASH UNIVERSITY

gerflor.com.au

### LOCATION

Clayton  
Melbourne  
Australia

COMPLETED  
2012

ARCHITECT  
Design Inc.

CONTRACTOR  
Floor 91 Pty Ltd

### PRODUCT

Creation Clic System

AREA  
2 200 sqm

COLOURS  
0258 Muir Oak

Extensive areas of Gerflor Creation Clic flooring add to Stage One of the \$75 million refurbishment of the landmark Robert Menzies building at Monash University in Victoria.

Gerflor Creation Clic loose lay interlocking vinyl planks enhance the comfort and safety of visitors over four floors of the building. Confidently nestled alongside other contemporary surfaces including stone, glass, wood and polished metals, the wide plank timber flooring provides the perfect solution for high traffic areas.

The Menzies Building is an 11storey facility based on Modernist lines that opened in 1963. Great care is being taken to preserve the integrity of the original architecture whilst providing new lifts, stairs and services to meet today's demands of the building.
