Berwick Floors Pty Ltd

COLOURS
4453 Wood Blue

Futsal Oz has elevated its Mt Evelyn stadium to international standards with the installation of Gerflor playing surface. About 2700 square metres of Taraflex Multi-Use 6.2 flooring was installed as part of a major refurbishment. "The players love it and the surface means the ball moves around smoothly so it improves the quality of the game," Founder and CEO of Futsal Oz, Peter Parthimos said. Cheaper flooring options are readily available but, after installing Gerflor at his Brunswick facility, Peter Parthimos opted for Gerflor again. "Its reliable, durable and a good surface that is ideal for futsal," he said.
