A versatile mix of Gerflor products answered various needs inside the all new prestige showroom of South Central Trucks in South Australia. This huge new headquarters is situated on a 4.2 ha site and has a footprint four times larger than the previous two dealerships combined. The design and finishes reflect the dealerships status as one of Australia's leading names in heavy duty trucks.

Mark Neal was contracted by Pike Constructions through Fred Cetta Carpet Choice Adelaide to install Gerflor products including Taralay Premium on floors, bench tops and some walls, Creation Clic interlocking planks in two colours and Tarasafe Ultra in wet areas. A proud Mark shared some of his images of the completed installation where he was particularly proud of welding and coving outcomes.
