LOVE IT. LIVE IT.

Gerflor[®]

FEATURES AND BENEFITS

Beneath its heady good looks, Gerflor Texline boasts an enviable list of practical features and benefits. Warm and soft underfoot, quiet and comfortable – even in high rise situations, waterproof both sides and quick and easy to install, Texline is the perfect choice for new homes, townhouses or renovations.

Warm and comfortable

Texline's soft, absorbent backing insulates against cold, bringing year round warmth and comfort to your home.

Acoustic comfort

Texline effectively reduces noise bringing quiet comfort to your home. Ideal for apartments, flats or corridors and re-covering hard and noisy floors.

Easy to clean

The superior surface treatments create a barrier to prevent dust and dirt from penetrating the surface, allowing for easy maintenance.

Tough and durable

Texline is protected by the latest scuff, scratch and stain resistant surface treatments making it suitable for high traffic areas. Dogs, kids and cats are welcome in a Texline home.

Save money and time

Texline can be laid directly, without adhesives, over most existing floors for a fast and cost effective flooring solution. The innovative textile backing absorbs subfloor irregularities making it possible to transform areas covered in old tiles or noisy ceramics* (p16).

Waterproof from above and below

The anti-mildew and waterproof membrane prevents the transfer of mould to the surface, ideal for wet areas and damp concrete floors.

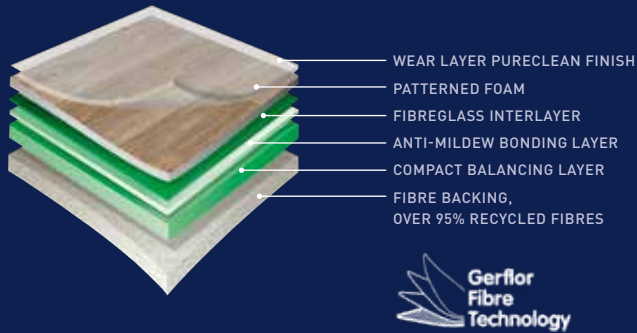

Environmentally friendly

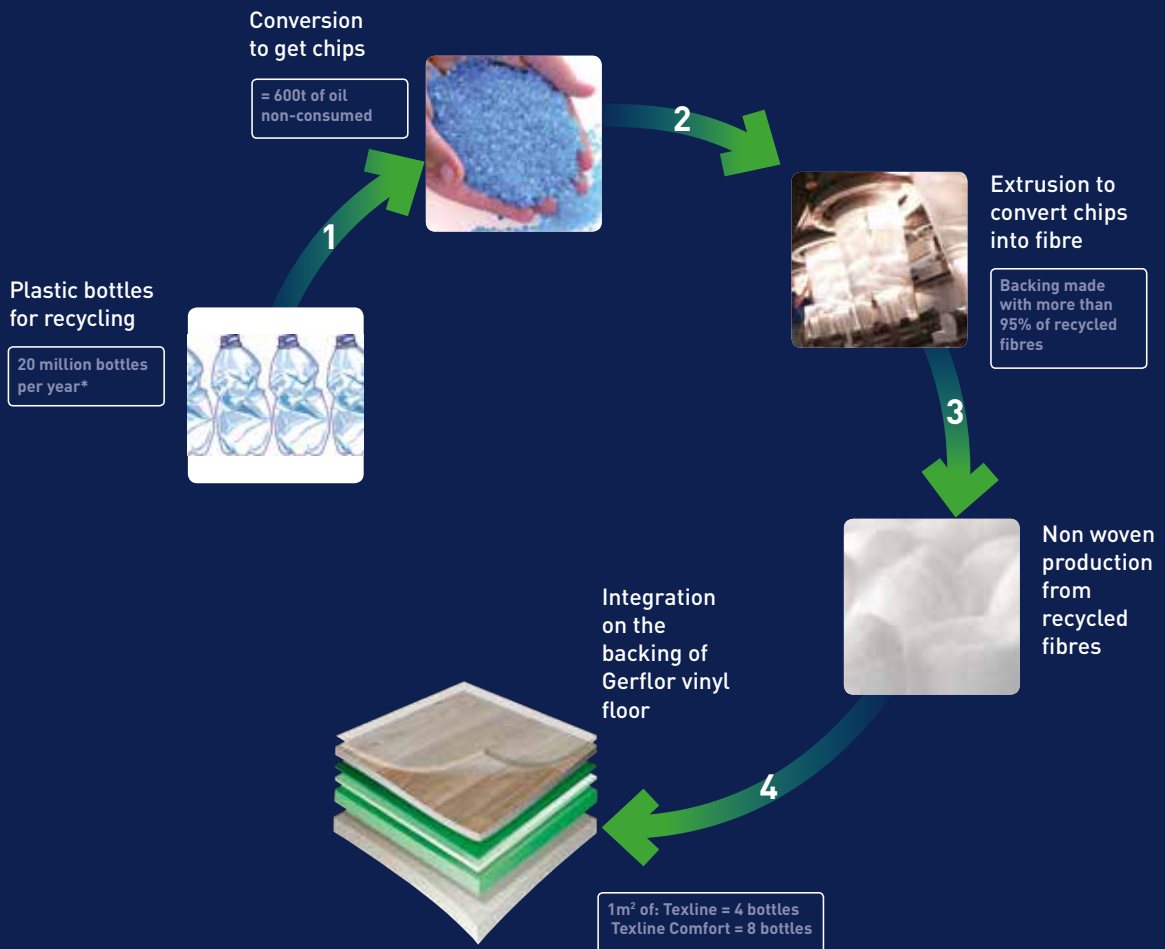

Texline's backing is made with more than 95% recycled fibres and the product is 100% recyclable. The VOC rating is even lower than regulations demand ensuring a safe, environmentally friendly solution for every room in the home.

PATENTED INNOVATION

Texline is a revolutionary textile backed flooring that combines the warmth, comfort and quiet of carpet with the practical, hardwearing benefits of vinyl.

RECYCLING PROCESS for fibres used in Gerflor products

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure or for compensation for any other loss or damage. You are also entitled to have the goods repaired if the goods fail to be of acceptable quality and the failure does not amount to a major failure. For more detail call 1800 060 785 or visit www.gerflor.com.au

TEXLINE PRO

COMMERCIAL COLLECTION

The stylish good looks of this new commercial quality collection are matched by its tough, hardwearing, non-slip surface that is designed to withstand the heaviest foot traffic. Texline Pro provides the ideal solution to meet both your aesthetic vision and the practical demands of a doctors surgery, dental practice or aged care facility. Designs reflect the latest trends in interior finishes including large format wood planks right through to pared back concrete and stone finishes.

TEXLINE COMFORT

PREMIUM COLLECTION

Underfoot comfort reaches new heights with this luxurious Texline Comfort collection. Sun drenched timber looks draw inspiration from nature and the timeless beauty of stone and concrete are celebrated in hues that will complement every contemporary interior design space. Intricate designs add complexity and intrigue over a palette of on trend colours. Geometric influences celebrate a modern take on the classic ceramic and stone patterns.

INSTALLATION

Gerflor Texline is the ultimate loose lay flooring solution. The exclusive textile backing is made from recycled plastic bottles so it is resistant to moisture and ideal for wet areas as well as general use. Texline is quick and easy to install over most existing subfloors with minimal preparation.

Select the best Texline product for your interior application:

- Texline Essence and Comfort are for domestic use only
- Texline HQR suits domestic and light commercial uses.

Texline can be loose laid directly over most subfloors*:

- Wooden floorboards
- Ceramic tiles
- Concrete slab.

* Provided there is no height variation and irregularities, joins or gaps don't exceed 3mm width and 2mm depth. Best results will be enjoyed using a trained installer and following Gerflor's installation instructions. Texline cannot be installed over carpet.

Gerflor's Primetex and Solidtex ranges have similar features and benefits to Texline but are not recommended for loose lay. These products should be permanently glued to satisfy warranty conditions and ensure optimal performance.

MAINTENANCE

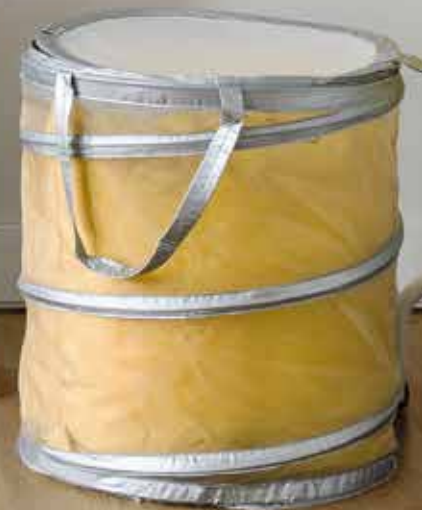

- For regular maintenance use a vacuum cleaner, a soft broom or a damp mop.
- To clean Texline use a neutral floor cleaning detergent with water and rinse thoroughly.
- Most stains can be removed using a damp cloth with Eucalyptus Oil. Do not use solvents or ammonia based cleaners.
- To keep your Texline floor looking beautiful do not allow waxed or rubber products to have prolonged contact with your floor. Replace wax or rubber castors on the end of furniture legs with plastic or nylon ends or protect the floor with felt pads.
